Children 2 Grandchildren 5

Best Gables Memory

I cannot say I have any one particular “best memory”, except to say the experiences and friendships I developed from my earliest years to the present made me who I am today. Band and orchestra were both very special to me for the friendships, disciplines and enhancements to my now very minimal musical talents! So much for shaking the family tree with a famous musical composer.

Special Events In My Life

Attended Florida Southern College, Lakeland, FL, Valencia Community College and finally graduated from University of Central Florida 5/1998 with BA. I have two sons, Richard Merrill Smith and Jason Roy Smith, five grandchildren ranging from 14 – 24 and Barbara, my son Rick's wife. I have been an office administrator and paralegal with numerous law firms in Miami, Greenville, SC and Orlando, FL for 43 years and plan on working for another 4 years. Have also worked for a federal judge, immigration judge, several circuit court judges and President Carter's Envoy to the Vatican. I worked on national political fund raising events for 15 years and was in charge of finding the volunteers and maintaining/entertaining the volunteers for the telethon during the National Democratic Telethon held in Miami in the 60's. I have led an incredible life with fascinating experiences. I can honestly say I have no real regrets for anything I have done with my life, the friendships I have developed and continue to develop and the continual learning experiences I encounter daily. My very favorite busy Activity is entertaining in my home, trying out new recipes on unsuspecting guests and to have them be a hit and gardening. 2008
